## Brief View of Player

### A. About player's battery

Player has an internal, non-user-replaceable rechargeable lithium battery. For best results, the first time you use the player, let it charging for about 1 - 2 hours or until the charging LED lights go Off before you use it.

### Charging the Battery

You can charge the Player's battery in two ways:

1. Connect player to your computer. Or,
2. Use the USB power charger. (available separately)

### B. Insert Micro SD Memory Card

This device is design without an internal memory; put a Micro SD memory card insert into the memory card slot before use the player.

- Plug in the Micro SD memory card into player card slot at side, now you can use the player.
- You can upload your desired media files to the player, or, you can upload your desired media files to the Micro SD memory Card direct with your computer before insert it to the player.
- When you want to insert / remove the Micro SD memory card from memory card slot. Make sure the player is in Off status. Otherwise, the player functional

may dead halt or the internal data / files will be lost / damaged.

**Note:** The status indicator light will be flashing fast and then will go Off, when you want to turn On the player. However, the player will turn Off automatically If no memory card has inserted to player's card slot.

No sound is heard	<ul style="list-style-type: none"><li>• Check whether Volume is set to “minimum” and connect the headphone plugs firmly.</li><li>• Check whether the headphone plug is dirty.</li><li>• Corrupted WMA / MP3 may make a static noise and the sound may cut off. Make sure that the music files are not corrupted.</li><li>• Check whether music files format are support.</li></ul>
Download of music files fails.	<ul style="list-style-type: none"><li>• Check whether player’s USB connector is connected with computer properly.</li><li>• Check whether driver is installed correctly.</li><li>• Check whether the player’s memory is in full.</li><li>• Check whether the Micro SD memory card is inserted.</li></ul>

## H. Specification

Dimension	43 mm (H) x 29.8 mm (W) x 15 mm (D)
Weight	14.5 g
PC Connection	USB 2.0 (High Speed)

Earphone Impedance	32 Ohm	
Internal Memory	Nil	
External Memory	Micro SD Memory Card (up to 8GB)	
Battery	Built-in Rechargeable Lithium battery (3.7V 110mA)	
	Playing Time: about 4-5 Hours	
Supports Music Format	MP3	32kbps - 320kbps
	WMA	32kbps – 384kbps
Audio	Earphone Output Power	L: 275mV (32 Ohm) R: 275mV (32 Ohm)
	Frequency Response	20Hz – 20,000Hz
	SNR	80dB
Operation Temperature	-0°C - 40°C	
Operation Systems	Windows 98/SE/ME2000/XP/Vista/Win7, MAC9.2 or above	

**Note:** Product design and specification are subject to change without prior notice.
